

## DIRECT REPLACEMENT FOR BOSCH-REXROTH R928016753 HYDRAULIC FILTER ELEMENT

### SPECIFICATIONS:

|                               |                                                   |
|-------------------------------|---------------------------------------------------|
| <b>O.D.</b>                   | 6.0"                                              |
| <b>I.D. Top</b>               | 3.28"                                             |
| <b>I.D. Bottom</b>            | 3.28"                                             |
| <b>Length Overall</b>         | 16.82"                                            |
| <b>Construction Type</b>      | Double Open End, Optimized Microglass             |
| <b>Efficiency</b>             | 10 Micron; B9.9 = 200, B12.4 = 1000 per ISO 16889 |
| <b>Gasket Material</b>        | Viton                                             |
| <b>Wire Support</b>           | Yes                                               |
| <b>Max Operating Pressure</b> | 150 PSID Collapse                                 |
| <b>Max Temp</b>               | 250 Degrees F                                     |
| <b>Weight Each</b>            | 3.5                                               |
| <b>Carton Qty</b>             | 1                                                 |
| <b>Condition</b>              | New                                               |

This ISO Filtration hydraulic filter element is a direct replacement for the **Bosch-Rexroth R928016753** hydraulic filter element in form, fit, and function. The optimized filter media provides fine filtration, long life, and high dirt-holding capacity.

- Made in **America** for assured performance
- Quality **ISO 9001:2015** certified manufacturing
- High-performance filter media tested to **ISO 16889** protocols
