

## DIRECT REPLACEMENT FOR JURA FILTRATION SH65014 HYDRAULIC FILTER ELEMENT

### SPECIFICATIONS:

|                               |                                                   |
|-------------------------------|---------------------------------------------------|
| <b>O.D.</b>                   | 2.76"                                             |
| <b>I.D. Top</b>               | 1.61"                                             |
| <b>I.D. Bottom</b>            | 29 PSID Bypass Valve                              |
| <b>Length Overall</b>         | 11.96"                                            |
| <b>Construction Type</b>      | 29 PSID Bypass Valve, Optimized Microglass        |
| <b>Efficiency</b>             | 10 Micron; B9.9 = 200, B12.4 = 1000 per ISO 16889 |
| <b>Gasket Material</b>        | Viton                                             |
| <b>Wire Support</b>           | Yes                                               |
| <b>Max Operating Pressure</b> | 232 PSID Collapse                                 |
| <b>Max Temp</b>               | 250 Degrees F                                     |
| <b>Weight Each</b>            | 2.5                                               |
| <b>Carton Qty</b>             | 1                                                 |
| <b>Condition</b>              | New                                               |

High-performance, direct replacement for **Jura Filtration SH65014** hydraulic filter element in form, fit, and function. **Made in America** with ISO 9001:2015 compliant manufacturing for assured quality. Optimized microglass media **tested to ISO 16889** is used for fine filtration, long life, and high dirt-holding capacity.

- 2.76" OD x 1.61" ID Top x 11.96" Length overall
- **10 Micron**; B9.9 = 200, B12.4 = 1000 per ISO 16889
  - 232 PSID Collapse
